S.No	Performance Parameter	Evaluation
1	Regularity and Punctuality	10
2	Meeting deadlines and targets	10
3	Self motivation and willingness to perform the assigned task	10
4	Potential for further development	10
5	Effective use of feedback.	10
6	Attitude and Ethical Behavior	10
7	Suitability for Employment	10

**Part II**

- 1) What are the Major Strengths of the Intern?

During the tenure of the internship, we have observed him working with genuine interest, sincerity and discipline. He grasped various ML model techniques and codified those along with the user interface. He additionally developed the python flask based APIs for the ML model building techniques. He is a quick learner, works very professionally and also provides a good documentation of his work. Overall, we are very happy with his contribution

- 2) What are the areas of Improvement for the intern?

Nothing specific. He will acquire necessary skills as he gets into the career. He needs to learn from others, apply the basics and contribute in the same spirit.

- 3) What domain knowledge would you recommend for this intern towards development of competency for successful industry career?

Domain knowledge is acquired over the time by applying basics, taking real interest in domain, learn from others, and implement learnings. I am sure that Prathmesh will do that in his career.

- 4) Any other comments/ suggestions: None
